

Waste Connections Reports Fourth Quarter Results and Provides 2008 Outlook

- Reports revenue of \$247.7 million, up 17.6%, and internal growth of 10.3%
- Reports earnings per share of \$0.33, including \$0.02 of items noted below
- Completes additional \$20 million of acquired annualized revenue
- Reports full year free cash flow of \$106.2 million, or 11.1% of revenue
- Repurchases approximately \$110.3 million of common stock during the year
- Expects approximately 10% revenue growth in 2008, excluding additional acquisitions, and more than 20% increase in free cash flow

PRNewswire-FirstCall
FOLSOM, Calif.

Waste Connections, Inc. today announced its results for the fourth quarter 2007. Revenue totaled \$247.7 million, a 17.6% increase over revenue of \$210.7 million in the year ago period. Operating income was \$49.7 million, a 13.3% increase over operating income of \$43.9 million in the fourth quarter of 2006. Net income in the quarter was \$22.8 million, or \$0.33 per share on a diluted basis of 69.5 million shares. Management noted that current period results included approximately \$2.7 million (\$1.6 million net of taxes, or approximately \$0.02 per share) associated with higher than expected fuel prices and the previously announced labor disruption in El Paso. In the year ago period, the Company reported net income of \$20.6 million and diluted earnings per share of \$0.29.

"We are extremely pleased with our results in the quarter and the underlying strength of our business as we look to 2008. Internal growth exceeded our expectations, and operating results in the quarter were quite strong, despite the approximate 100 basis point margin impact from higher than expected fuel prices and the labor disruption in El Paso," said Ronald J. Mittelstaedt, Chairman and Chief Executive Officer. "In addition, we recently completed eight acquisitions with combined annualized revenue of approximately \$20 million, the two largest of which include Cascade Disposal, a long-term franchise provider in Bend, Oregon, and Clarksville Disposal, the leading provider of collection services in Clarksville, Tennessee. With these transactions, acquisition activity in the year totaled approximately \$55 million of annualized revenue."

Mr. Mittelstaedt added, "A continuing strong pricing environment and rollover contribution from recently completed acquisitions position us both for double digit revenue growth in 2008 and to offset recent increases in fuel prices. Finally, an expected more than 20% increase in free cash flow in 2008 provides us the continuing flexibility to fund our growth strategy while returning an estimated \$125 million to shareholders this year through stock repurchases."

For the year ended December 31, 2007, revenue was \$958.5 million, a 16.3% increase over revenue of \$824.4 million in 2006. Operating income was \$207.0 million, a 20.8% increase over operating income of \$171.4 million in 2006. Net income was \$99.1 million, or \$1.42 per share on a diluted basis of 70.0 million shares. In 2006, the Company reported net income of \$77.4 million, or \$1.10 per share on a diluted basis of 70.4 million shares.

2008 OUTLOOK

Waste Connections also announced its outlook for 2008. The Company's outlook excludes the impact of any additional acquisitions and assumes: (1) fuel expense as a percentage of revenue increasing approximately 70 basis points reflecting higher current market prices; (2) approximately \$13.0 million of non-cash related costs (\$8 million net of taxes, or approximately \$0.12 per share), consisting of an estimated \$8 million for equity-based compensation costs and \$5.0 million for amortization of acquisition-related intangibles; and (3) \$125 million of common stock repurchased during the year. The outlook provided below is forward looking, and actual results may differ materially depending on risks and uncertainties detailed at the end of this release and in our periodic SEC filings. Certain components of the outlook for 2008 are subject to quarterly fluctuations.

- Revenue is estimated to increase approximately 10.0% and range between \$1.05 billion and \$1.06 billion. This assumes internal growth of approximately 6.0%, with between 4.5% and 5.0% from price and surcharges.
- Selling, general and administrative expense, which includes approximately \$8.0 million of non-cash equity-based compensation costs, is estimated at approximately 10.5% of revenue.
- Depreciation and amortization, which includes approximately \$5.0 million of non-cash amortization expense for acquisition-related intangibles, is estimated at approximately 9.0% of revenue.

- Operating income is estimated at approximately 21.5% of revenue.
- Net interest expense is estimated at approximately \$36.5 million.
- Minority interest expense is estimated at approximately 1.5% of revenue.
- Effective tax rate is expected to be approximately 38.5%.
- Net cash provided by operating activities is estimated to be approximately 24% of revenue.
- Capital expenditures are estimated to be approximately \$110 million.
- Diluted shares outstanding are expected to average approximately 67 million.

Waste Connections will be hosting a conference call related to fourth quarter earnings and 2008 outlook on February 11th at 5:00 P.M. Eastern Time. The call will be broadcast live over the Internet at <http://www.streetevents.com/> and through a link on the Company's web site at <http://www.wasteconnections.com/>. A playback of the call will be available at both of these sites.

For non-GAAP measures, see accompanying Non-GAAP Reconciliation Schedule.

Waste Connections, Inc. is an integrated solid waste services company that provides solid waste collection, transfer, disposal and recycling services in mostly secondary markets in the Western and Southern U.S. The Company serves approximately 1.5 million residential, commercial and industrial customers from a network of operations in 23 states. The Company also provides intermodal services for the movement of containers in the Pacific Northwest. Waste Connections, Inc. was founded in September 1997 and is headquartered in Folsom, California.

Certain statements contained in this press release are forward-looking in nature. These statements can be identified by the use of forward-looking terminology such as "believes," "expects," "may," "will," "should," "anticipates," or the negative thereof or comparable terminology, or by discussions of strategy. Waste Connections' business and operations are subject to a variety of risks and uncertainties and, consequently, actual results may differ materially from those projected by any forward-looking statements. Factors that could cause actual results to differ from those projected include, but are not limited to, the following: (1) Waste Connections may be unable to compete effectively with larger and better capitalized companies and governmental service providers; (2) increases in the price of fuel may adversely affect Waste Connections' business and reduce its operating margins; (3) increases in labor and disposal and related transportation costs could impact Waste Connections' financial results; (4) increases in insurance costs and the amount that Waste Connections self-insures for various risks could reduce its operating margins and reported earnings; (5) Waste Connections depends significantly on the services of the members of its senior, regional and district management team, and the departure of any of those persons could cause its operating results to suffer; (6) Waste Connections' financial results are based upon estimates and assumptions that may differ from actual results; (7) efforts by labor unions could divert management attention and adversely affect operating results; (8) Waste Connections' results are vulnerable to economic conditions and seasonal factors affecting the regions in which it operates; (9) Waste Connections may lose contracts through competitive bidding, early termination or governmental action; (10) Waste Connections may be subject in the normal course of business to judicial and administrative proceedings that could interrupt its operations, require expensive remediation, result in adverse judgments or settlements and create negative publicity; (11) competition for acquisition candidates, consolidation within the waste industry and economic and market conditions may limit Waste Connections' ability to grow through acquisitions; (12) Waste Connections' growth and future financial performance depend significantly on its ability to integrate acquired businesses into its organization and operations; (13) Waste Connections' acquisitions may not be successful, resulting in changes in strategy, operating losses or a loss on sale of the business acquired; (14) because Waste Connections depends on railroads for its intermodal operations, its operating results and financial condition are likely to be adversely affected by any reduction or deterioration in rail service; (15) Waste Connections' decentralized decision-making structure could allow local managers to make decisions that adversely affect Waste Connections' operating results; (16) Waste Connections may incur additional charges related to capitalized expenditures, which would decrease its earnings; (17) each business that Waste Connections acquires or has acquired may have liabilities that Waste Connections fails or is unable to discover, including environmental liabilities; (18) liabilities for environmental damage may adversely affect Waste Connections' business and earnings; and (19) the adoption of new accounting standards or interpretations could adversely affect Waste Connections' financial results. These risks and uncertainties, as well as others, are discussed in greater detail in Waste Connections' filings with the Securities and Exchange Commission, including its most recent Annual Report on Form 10-K. There may be

additional risks of which Waste Connections is not presently aware or that it currently believes are immaterial which could have an adverse impact on its business. Waste Connections makes no commitment to revise or update any forward-looking statements in order to reflect events or circumstances that may change.

ADDITIONAL STATISTICS
THREE MONTHS ENDED DECEMBER 31, 2007
(Dollars in thousands)

Internal Growth: The following table reflects revenue growth for operations owned for at least 12 months:

	Three Months Ended December 31, 2007	
Price	4.6%	
Volume	3.5%	
Intermodal, Recycling and Other	2.2%	
Total	10.3%	

Uneliminated Revenue Breakdown:

	Three Months Ended December 31, 2007	
Collection	\$180,789	64.3%
Disposal and Transfer	74,883	26.6%
Intermodal, Recycling and Other	25,447	9.1%
Total	\$281,119	100.0%

Inter-company elimination \$33,389

Days Sales Outstanding for the three months ended December 31, 2007: 46
(30 net of deferred revenue)

Internalization for the three months ended December 31, 2007: 67%

Other Cash Flow Items for the three months ended December 31, 2007:

Cash Interest Paid: \$10,201
Cash Taxes Paid: \$13,036

Debt to Capitalization: 48.6%

Shares Repurchased during the three months ended December 31, 2007:
1,475,800

NON-GAAP RECONCILIATION SCHEDULE
(in thousands)

Free cash flow, a non-GAAP financial measure, is provided supplementally because it is widely used by investors as a valuation and liquidity measure in the solid waste industry. Waste Connections defines free cash flow as net cash provided by operating activities, plus proceeds from disposal of assets and excess tax benefit associated with equity-based compensation, plus or minus change in book overdraft, less capital expenditures for property and equipment and distributions to minority interest holders. This measure should be used in conjunction with GAAP financial measures. Management uses free cash flow as one of the principal measures to evaluate and monitor the ongoing financial performance of our operations. Other companies may calculate free cash flow differently.

Free cash flow reconciliation:

	Three Months Ended December 31, 2007	Twelve Months Ended December 31, 2007
Net cash provided		
by operating activities	\$49,003	\$219,069
Plus: Change in book overdraft	2,340	8,835
Plus: Proceeds from disposal of assets	61	1,016
Plus: Excess tax benefit associated with equity-based compensation	3,948	14,137
Less: Capital expenditures for property and equipment	(28,127)	(124,234)
Less: Distributions to minority interest holders	(2,205)	(12,642)
Free cash flow	\$25,020	\$106,181
Free cash flow as % of revenues	10.1%	11.1%
