FOLSOM, Calif.

Waste Connections, Inc. today announced its results for the third quarter 2008. Revenue totaled \$272.7 million, an 8.7% increase over revenue of \$250.8 million in the year ago period. Operating income was \$56.7 million versus \$57.1 million in the third quarter of 2007. Net income in the quarter was \$28.3 million, or \$0.41 per share on a diluted basis of 68.5 million shares. In the year ago period, the Company reported net income of \$28.7 million and diluted earnings per share of \$0.41. Non-cash costs for equity-based compensation and amortization of acquisition-related intangibles were \$3.4 million (\$2.0 million net of taxes, or approximately \$0.03 per share) in the quarter compared to \$2.6 million (\$1.6 million net of taxes, or approximately \$0.02 per share) in the year ago period.

"Pricing strength and operational improvements continue to help us offset most of the impact of higher fuel costs and a weakening economy. While that has been the theme for 2008, we now look ahead and are both encouraged by declining fuel costs and extremely pleased with the building blocks now in place for future growth. The LeMay acquisition, our largest single transaction with revenue of approximately \$100 million and expected to close in November, will solidly expand our presence in what we believe are the more attractive exclusive markets on the West Coast," said Ronald J. Mittelstaedt, Chairman and Chief Executive Officer. "Our recently completed equity and note offerings provide us the strongest balance sheet in our sector and uniquely position us with the available capital necessary to fund additional acquisitions, which may include divestitures resulting from the potential merger between Republic Services and Allied Waste."

For the nine months ended September 30, 2008, revenue was \$790.0 million, a 11.1% increase over revenue of \$710.8 million in the year ago period. Operating income was \$163.1 million versus \$157.3 million for the same period in 2007. Net income for the nine months ended September 30, 2008, was \$77.6 million, or \$1.14 per share on a diluted basis of 68.2 million shares. In the year ago period, the Company reported net income of \$76.3 million, or \$1.08 per share on a diluted basis of 70.4 million shares. Non-cash costs for equity-based compensation and amortization of acquisition-related intangibles for the nine months ended September 30, 2008, were \$10.1 million (\$6.1 million net of taxes, or approximately \$0.09 per share) compared to \$7.8 million (\$4.7 million net of taxes, or approximately \$0.07 per share) in the year ago period.

Certain statements contained in this press release are forward-looking in nature. These statements can be identified by the use of forward-looking terminology such as "believes," "expects," "may," "will," "should," or "anticipates," or the negative thereof or comparable terminology, or by discussions of strategy. Our business and operations are subject to a variety of risks and uncertainties and, consequently, actual results may differ

materially from those projected by any forward-looking statements. Factors that could cause actual results to differ from those projected include, but are not limited to, the following: (1) we may be unable to compete effectively with larger and better capitalized companies and governmental service providers; (2) downturns in the U.S. economy adversely affect operating results; (3) our results are vulnerable to economic conditions and seasonal factors affecting the regions in which we operate; (4) we may lose contracts through competitive bidding, early termination or governmental action; (5) price increases may not be adequate to offset the impact of increased costs or may cause us to lose volume; (6) increases in the price of fuel may adversely affect our business and reduce our operating margins; (7) increases in labor and disposal and related transportation costs could impact our financial results; (8) increases in insurance costs and the amount that we self-insure for various risks could reduce our operating margins and reported earnings; (9) efforts by labor unions could divert management attention and adversely affect operating results; (10) competition for acquisition candidates, consolidation within the waste industry and economic and market conditions may limit our ability to grow through acquisitions; (11) our growth and future financial performance depend significantly on our ability to integrate acquired businesses into our organization and operations; (12) our acquisitions may not be successful, resulting in changes in strategy, operating losses or a loss on sale of the business acquired; (13) our indebtedness could adversely affect our financial condition; we may incur substantially more debt in the future; (14) each business that we acquire or have acquired may have liabilities that we fail or are unable to discover, including environmental liabilities; (15) liabilities for environmental damage may adversely affect our financial condition, business and earnings; (16) our accruals for our landfill site closure and post-closure costs may be inadequate; (17) we depend significantly on the services of the members of our senior, regional and district management team, and the departure of any of those persons could cause our operating results to suffer; (18) our decentralized decision-making structure could allow local managers to make decisions that adversely affect our operating results; (19) we may be subject in the normal course of business to judicial, administrative or other third party proceedings that could interrupt our operations, require expensive remediation, result in adverse judgments, settlements or fines and create negative publicity; (20) because we depend on railroads for our intermodal operations, our operating results and financial condition are likely to be adversely affected by any reduction or deterioration in rail service; (21) we may incur additional charges related to capitalized expenditures, which would decrease our earnings; (22) our financial results are based upon estimates and assumptions that may differ from actual results; and (23) the adoption of new accounting standards or interpretations could adversely affect our financial results. These risks and uncertainties, as well as others, are discussed in greater detail in our filings with the Securities and Exchange Commission, including our recent Form S-3 Registration Statement and the related Prospectus Supplement and our most recent Annual Report on Form 10-K. There may be additional risks of which we are not presently aware or that we currently believe are immaterial which could have an adverse impact on our business. We make no commitment to revise or update any forward-looking statements in order to reflect events or circumstances that may change.

#### NON-GAAP RECONCILIATION SCHEDULE (in thousands)

Free cash flow, a non-GAAP financial measure, is provided supplementally because it is widely used by investors as a valuation and liquidity measure in the solid waste industry. Waste Connections defines free cash flow as net cash provided by operating activities, plus proceeds from disposal of assets and excess tax benefit associated with equity-based compensation, plus or minus change in book overdraft, less capital expenditures for property and equipment and distributions to minority interest holders. This measure is not a substitute for, and should be used in conjunction with, GAAP financial measures. Management uses free cash flow as one of the principal measures to evaluate and monitor the ongoing financial performance of our operations. Other companies may calculate free cash flow differently.

Free cash flow reconciliation:

	Three Months Ended September 30, 2008	Nine Months Ended September 30, 2008
Net cash provided by operating activities	\$64,733	\$194,661
Less: Change in book overdraft	(9,157)	(8,835)
Plus: Proceeds from disposal of assets	133	1,499
Plus: Excess tax benefit associated		

with equity-based compensation	3,719	5,647
Less: Capital expenditures for property and equipment	(31,213)	(79,536)
Less: Distributions to minority interest holders	(2,205)	(8,232)
Free cash flow	\$26,010	\$105,204
Free cash flow as % of revenues	9.5%	13.3%

	Three Months Ended September 30, 2007	Nine Months Ended September 30, 2007
Net cash provided by operating activities	\$62,787	\$170,065
Plus: Change in book overdraft	657	6,495
