TORONTO, April 24, 2019 /<u>PRNewswire</u>/ -- Waste Connections, Inc. (TSX/NYSE: WCN) ("Waste Connections" or the "Company") today announced its results for the first quarter of 2019.

"We are extremely pleased with the strong start to the year which, along with expected sequential improvement in volume growth and recently completed acquisitions, positions us well for the remainder of 2019. Continuing strength in solid waste price growth once again drove underlying margin expansion and better than expected financial results in the quarter, enabling us to overcome weather-related impacts across multiple markets and further declines in recycled commodity values. In addition, adjusted free cash flow\* of almost 20% of revenue in the quarter puts us solidly on track to achieve our full year outlook of \$950 million," said Worthing F. Jackman, President.

Mr. Jackman added, "Year-to-date, we've signed or closed acquisitions with total annualized revenue of approximately \$100 million, putting us on pace to potentially deliver another outsized year of acquisition activity. These acquisitions include new market entries in Colorado, Illinois and Iowa, and tuck-ins in Colorado, Montana, Nebraska, New York and Wyoming. Our strong financial profile and free cash flow generation provide us the flexibility to fund continuing outsized acquisition activity while increasing the return of capital to shareholders."

#### Reconciliation of Adjusted EBITDA:

Adjusted EBITDA, a non-GAAP financial measure, is provided supplementally because it is widely used by investors as a performance and valuation measure in the solid waste industry. Management uses adjusted EBITDA as one of the principal measures to evaluate and monitor the ongoing financial performance of Waste Connections' operations. Waste Connections defines adjusted EBITDA as net income attributable to Waste Connections, plus or minus net income (loss) attributable to noncontrolling interests, plus income tax provision, plus interest expense, less interest income, plus depreciation and amortization expense, plus closure and post-closure accretion expense, plus or minus any loss or gain on impairments and other operating items, plus other expense, less other income, plus foreign currency transaction loss, less foreign currency transaction gain. Waste Connections further adjusts this calculation to exclude the effects of other items management believes impact the ability to assess the operating performance of its business. This measure is not a substitute for, and should be used in conjunction with, GAAP financial measures. Other companies may calculate adjusted EBITDA differently.
