- Increases full year 2022 outlook to revenue of approximately \$7.125 billion, net income of approximately \$837.5 million, adjusted EBITDA^(b) of approximately \$2.190 billion, net cash provided by operating activities of approximately \$1.974 billion and adjusted free cash flow^(b) of approximately \$1.160 billion

TORONTO, ONTARIO, August 2, 2022 - Waste Connections, Inc. (TSX/NYSE: WCN) ("Waste Connections" or the "Company") today announced its results for the second quarter of 2022 and updated its outlook for 2022.

"Accelerating solid waste pricing and E&P waste activity drove a top-to-bottom beat in the period. Solid waste pricing growth of 8.8% enabled us to overcome increased inflationary pressures during the period and deliver adjusted EBITDA^(b) margin in line with our outlook for Q2 and flat on a year over year basis excluding the margin dilutive impact from acquisitions completed since the year ago period," said Worthing F. Jackman, President and Chief Executive Officer.

"Our outperformance in the first half of 2022, expected further sequential increases in solid waste pricing growth, continuing strength in E&P waste activity, and acquisitions closed year to date, position us to update our outlook for the full year to revenue of approximately \$7.125 billion, adjusted EBITDA^(b) of approximately \$2.190 billion and adjusted free cash flow^(b) of approximately \$1.160 billion, exceeding our initial outlook as provided in February and another reflection of our culture of accountability in a challenging operating environment."

Mr. Jackman added, "As anticipated, acquisition activity is pacing well above average. We have closed approximately \$245 million in annualized revenues, with another approximately \$225 million in total annualized revenue under definitive agreements expected to close during the third quarter, subject to customary closing conditions, and our pipeline remains quite robust. As such, we believe we are well-positioned for double digit revenue growth in 2023 along with margin expansion from continuing solid waste pricing strength and rollover contribution from acquisitions already signed or closed year to date; additional acquisitions expected to close later this year and early next year would provide further growth."

NON-GAAP RECONCILIATION SCHEDULE

(in thousands of U.S. dollars, except where noted)

Reconciliation of Adjusted EBITDA:

Adjusted EBITDA, a non-GAAP financial measure, is provided supplementally because it is widely used by investors as a performance and valuation measure in the solid waste industry. Management uses adjusted EBITDA as one of the principal measures to evaluate and monitor the ongoing financial performance of Waste Connections' operations. Waste Connections defines adjusted EBITDA as net income attributable to Waste Connections, plus or minus net income (loss) attributable to noncontrolling interests, plus income tax provision, plus interest expense, less interest income, plus depreciation and amortization expense, plus closure and post-closure accretion expense, plus or minus any loss or gain on impairments and other operating items, plus other expense, less other income. Waste Connections further adjusts this calculation to exclude the effects of other items management believes impact the ability to assess the operating performance of its business. This measure is not a substitute for, and should be used in conjunction with, GAAP financial measures. Other companies may calculate adjusted EBITDA differently.

Reconciliation of Adjusted Free Cash Flow:

Adjusted free cash flow, a non-GAAP financial measure, is provided supplementally because it is widely used by investors as a valuation and liquidity measure in the solid waste industry. Management uses adjusted free cash flow as one of the principal measures to evaluate and monitor the ongoing financial performance of Waste Connections' operations. Waste Connections defines adjusted free cash flow as net cash provided by operating activities, plus or minus change in book overdraft, plus proceeds from disposal of assets, less capital expenditures for property and equipment and distributions to noncontrolling interests. Waste Connections further adjusts this calculation to exclude the effects of items management believes impact the ability to assess the operating performance of its business. This measure is not a substitute for, and should be used in conjunction with, GAAP liquidity or financial measures. Other companies may calculate adjusted free cash flow differently.
